ELQUATOR's PORTABLE POWER SUPPLY is a very versatile equipment for every household. A perfect back-up for power outages, operates silently with totally no fumes. It is also perfect for outdoor activities like camping. Use it for a variety of gadgets:

- Laptops
- DVD Players
- LED TVs
- LED Lightings
- Fans
- Portable Speakers
- and much more

SPECIFICATIONS

Battery type: 18650 TR lithium ion
Battery System Connection: 3S 22P
Power Output: Up to 2500Wh (12 VDC)
Power Storage Capacity: 220Ah
Nominal Voltage Storage: 11.1V
Voltage Output Switching: 12 to 24 to 12 Full Capacity VDC
Constant Current: 110A
Constant Voltage: 12.6V
Charge Rate: 110A
Control System: ESP 32 Micro Controller via Smartphone
Discharge Temperature: 20° - 65°C
Charge Temperature: 0° - 45°C
220VAC 50Hz Power Socket: 1

5V USB Output: 2
Fuse Breaker: 40A
Cooling Fan: 1
Charging Unit: 1
Built-in Inverter 2kW: 1
